

Stitching Assignment 2

If your practice fabric is still loaded up after Assignment number 1, you can continue stitching on the same fabric. If not, you will want a practice quilt sandwich, using a fairly plain fabric for the top fabric.

TASK 1

As before, start out by warming up with something you are comfortable with and that you do well. Do this for a few minutes.

TASK 2

Using your drawing practice as a guide, stitch a gently curved line for your first spine. You can draw one in first, or you can stitch a line freehand. Be careful not to make the curves too deep. Start feathering!

TASK 3

Repeat for at least 15 to 20 minutes of total stitching time. Make sure that you stitch your feathers in all different directions.

TASK 4

Take a deep breath and step away from your stitching. Don't try to make any judgments about how you did until after you've had a break and walked away from it.
